CABIN BUNK BED:

The cabin bunk bed has a single bed over a single with another, independent single that pulls out underneath, with 3 big drawers.

[We also make it with 3/4 beds at the top but the pull-out bed remains a single.]

It has Ranch style headboards and a removable ladder, which gives full rails around the top bed for extra safety and keeps adventurous youngsters safe as it can easily be taken off.

The top and middle beds can be used alongside each other as 2, equal height beds and the bottom bed and drawer unit is separate.
