

**PHOTOS AND INFO ABOUT EDEN TIMBER'S:
SLEEPER COUCHES**

The sleeper couch we make is a sturdy, hospitality grade item with a very good, custom made hinge mechanism.

It opens to 1420mm x 1880mm – slightly bigger than the size of a standard double bed mattress.

We also make

- 1) A matching 2-seater sleeper couch which is 1260mm x 1420mm. It is slightly wider than a double bed but 620mm shorter in length. Perfect for 2 kids to sleep on.

HONEY-OAK MORRIS CHAIR

We offer a futon which has a durable, thick, 100% cotton cover which has been treated, preventing them from shrinking or fading in a wide variety of colours.

Our standard range covers are made from very durable cotton bull denim fabric.

We also offer custom-made, good quality, centre-fold, high density, foam sleeper couch mattresses, which have durable covers which are removable and washable.

Couches can come flat packed, which makes transport minimal and they are easy to assemble, with pre-drilled holes and screws and fittings included.

NB: The couch is very slightly bigger (about 5cm at most) than the standard size double mattress to accommodate the hinge when the couch is folded. Below are some examples of the finishes.
